# Arte en cada pieza

Todas nuestras piezas tienen un ápice artesano, único. En nuestro sistema productivo aunamos procesos automatizados con procesos manuales, lo que hace que cada producto sea único y diferente al anterior. Una conjunción perfecta entre lo tradicional y lo moderno.

## **De l'art dans chaque pièce**

Toutes nos pièces ont une touche artisanale et unique car nous rassemblons les processus automatisés et manuels dans notre système de production ce qui rend chaque produit différent et unique. Une association parfaite entre tradition et modernité.

## **Art in every piece**

All our pieces are completely handmade and unique. Our pieces are created through a combination of automated and manual processes, making each product unique and different from the previous one. A seamless juxtaposition between tradition and modernity.

## **L'arte in ogni pezzo**

Tutti i nostri pezzi hanno un sapore artigianale, unico. Il nostro sistema di produzione abbina processi automatizzati con processi manuali, che rendono ogni prodotto unico nel suo genere e diverso dal precedente. Una perfetta coniugazione tra tradizionale moderno.

## El baño a medida, nuestra pasión

Una línea de producción flexible y sin límites permite adaptar nuestros productos tanto al espacio arquitectónico más sencillo como al diseño contract más exigente. Para nosotros, cualquier proyecto a medida es un nuevo reto al que no sabemos decir “no”.

### **La salle de bains sur mesure, notre passion**

Une ligne de production flexible et sans limites nous permet d’adapter nos produits aussi bien à l’espace architectural le plus simple comme au design Contract le plus exigeant. Pour nous, tout projet sur mesure est un nouveau défi que nous ne pouvons pas refuser.

### **A passion for custom-made bathrooms**

Our flexible and limit-less production line allows us to adapt our products to simple architectural spaces as well as rigorously demanding design contracts. For us, any made-to-measure project is an exciting challenge; ‘no’ is not in our vocabulary.

### **Il bagno su misura, la nostra passione**

Una linea di produzione flessibile e senza limiti ci consente di adattare i nostri prodotti sia allo spazio architettonico più semplice che alla progettazione contrattuale più complessa. Per noi, qualsiasi progetto su misura è una nuova sfida a cui non sappiamo dire “no”.

# La experiencia también importa

El 24 de julio de 2009, en un entorno con más de 30 años de experiencia en el sector del baño, nació nuestro primer plato de ducha extraplano de resina, uno de los primeros en comercializarse en Europa. El conocimiento y evolución de los materiales durante estos años nos ha permitido mejorar sus características, sus diseños así como complementarlo con lavabos, encimeras y diferentes accesorios de baño.

## L'expérience compte aussi

Le 24 juillet 2009, après plus de 30 ans d'expérience dans l'univers des salles de bains est né notre premier receveur extraplat en résine, l'un des premiers à être commercialisé en Europe. La connaissance et l'évolution des matériels pendant toutes ces années nous a permis d'améliorer leurs caractéristiques, leur design et de les compléter avec des lavabos, des plans de vasque et d'autres accessoires de bain.

## Experience is pivotal

On 24 July 2009, backed by over 30 years of experience in the bathroom sector, our first extra-flat resin shower tray was conceived, one of the first to be sold in Europe. Our expertise and the evolution of materials in recent years has allowed us to improve its features and design, while complementing it with washbasins, countertops and diverse bathroom accessories.

## Anche l'esperienza conta

Il 24 luglio 2009, da una realtà con oltre 30 anni di esperienza nel settore bagno, è nato il nostro primo piatto doccia in resina extrapiatto, uno dei primi commercializzati in Europa. La conoscenza e l'evoluzione dei materiali in questi anni ci ha permesso di migliorarne le caratteristiche e il design e di completarlo con lavabi, ripiani e diversi accessori da bagno.

# Seguimos nuestro camino, seguiremos innovando

El equipo Resigres lo forman mentes inquietas buscando siempre la excelencia en cada elaboración. Seguir nuestra propia ruta, con la innovación como compañera de viaje, nos ha permitido reinventar el baño ofreciendo diseños diferentes, nuevos sistemas de evacuación así como mejoras constantes en la calidad de nuestros materiales.

## **Nous poursuivons notre chemin vers l'innovation**

L'équipe de Resigres est formée par des esprits inquiets qui sont toujours à la recherche de l'excellence dans chacune de leurs collaborations. En suivant notre propre chemin en quête d'innovation, nous avons pu réinventer la salle de bains avec différentes propositions de designs, des nouveaux systèmes d'évacuation ainsi que des améliorations constantes en ce qui concerne la qualité de nos matériaux.

## **We are following our path, continuing to innovate**

The Resigres team is made up of curious minds, aiming for excellence in each production. Following our own path, innovating at every step of the way, has allowed us to reinvent the bathroom: we offer unique designs, new drainage systems and constantly improve on the quality of our materials.

## **Continuiamo il nostro percorso, continueremo ad innovare.**

Il team Resigres è composto da menti inquiete, sempre alla ricerca dell'eccellenza in ogni progetto. Andare avanti per la nostra strada, avendo l'innovazione per compagna di viaggio, ci ha permesso di reinventare il bagno offrendo design diversi, nuovi sistemi di evacuazione nonché costanti miglioramenti della qualità dei nostri materiali.

# PIZARRA

## Collection

La colección Pizarra se inspira en las texturas de una piedra, una roca densa de grano fino que desprende un aspecto rugoso dividido en finas lajas.

*La collection Pizarra s'inspire des textures d'une pierre, une roche compacte à grain fin qui fait ressortir un aspect rugueux divisé en fines plaques de pierre.*

*The Pizarra collection is inspired by the texture of this stone, a dense, fine-grained rock with a rugged appearance that is divided into fine slabs.*

*La collezione Pizarra si ispira alla texture di questa pietra, una roccia densa a grana fine che presenta un aspetto rugoso formato da tante lastre molto sottili.*

# VENTO

Collection

Vento, emerge de la necesidad de encontrar elementos que expresen lo esencial y eliminen lo superfluo.

*La collection Vento nait du besoin de trouver des éléments qui expriment l'essentiel et éliminent le superflu.*

*The Vento collection addresses the quest to find elements that express minimalism and eliminate what is superfluous.*

*Vento, scaturisce dall'esigenza di trovare elementi che esprimano l'essenziale ed eliminino il superfluo.*

Cortes a medida | Découpes sur mesure | Cut to size | Tagli su misura

\* Los cortes inclinados no son compatibles con el apoyo de mamparas. Solo recomendable si el lado va contra pared.

\* Les coupes obliques sont incompatibles avec l'appui des parreaux de douches. Conseillé seulement si le côté va contre le mur.

\* Sloping lines are not compatible with shower screen supports. Only recommended when the side touches the wall.

\* I tagli inclinati non sono compatibili con il supporto delle pareti della doccia. Consigliato solo se il lato va contro la parete.

## AKRYTAN®

Akrytan® es un material compuesto por un núcleo de resina coloreada\* mezclada con cargas minerales y un acabado superficial con propiedades sanitarias de elevada resistencia. La formulación de la resina que compone Akrytan confiere a los productos mejoras en su fragilidad, carencia del fenómeno de hidrólisis y un peso un 30% menor que los productos fabricados con otras resinas del mercado.

(\* La masa interna está coloreada de forma aproximada al acabado superficial, no idéntica. Las rayas o rozaduras, sobre todo en colores oscuros, pueden provocar la aparición de polvo y marcas blancas superficiales derivadas del rayado del mineral interno.

- Antideslizante
- Antibacterias
- Coloreado en masa
- Personalizable
- No hidrolisis
- Fácil limpieza
- Alta dureza
- Reparable
- Ligero
- Baja fragilidad
- Resistencia UV

Akrytan® est un matériel composé d'un noyau de résine teintée\* mélangée avec des charges minérales et une finition superficielle avec des propriétés sanitaires de haute résistance. L'élaboration de la résine qui compose Akrytan confère aux produits des améliorations du point de vue de la fragilité, une carence du phénomène d'hydrolyse et un poids plus léger de 30 % que les produits fabriqués avec des résines du marché.

(\* La masse interne a une couleur semblable à celle de la finition superficielle mais pas identique. Les rayures ou les éraflures, surtout dans les tons obscurs, peuvent provoquer l'apparition de poussière et de marques blanches superficielles issues du rayage du minéral interne.

- Antiglisse
- Antibactérien
- Teinté dans la masse
- Personnalisable
- Sans hydrolyse
- Entretien facile
- Grande dureté
- Réparable
- Léger
- Faible fragilité
- Résistance aux UV

**Akrytan®** is a material whose core is composed of coloured resin\* mixed with mineral fillers. It has a high-strength hygienic surface. The formula for the resin used in Akrytan makes products less fragile, is devoid of hydrolysis and weighs 30% less than products manufactured with other resins on the market.

(\* The colour of the inner mass is close to the surface finish, but not identical. Scratches and scuffs, especially on darker colours, can create dust and white marks on the surface from scratching the internal mineral.

- Anti-slip
- Antibacterial
- Mass-coloured
- Customisable
- Hydrolysis-free
- Easy to clean
- High-strength
- Repairable
- Light
- Durable
- UV resistance

**Akrytan®** è un materiale composto da un'anima di resina colorata\* miscelata con cariche minerali e una finitura superficiale ad alta resistenza con proprietà sanitarie. La formulazione della resina che compone Akrytan rende i prodotti meno fragili, evita il fenomeno dell'idrolisi e consente una riduzione del peso del 30% rispetto ai prodotti realizzati con altre resine sul mercato.

(\* La massa interna è colorata in una tinta vicina ma non identica a quella della finitura superficiale. I graffi, specialmente nei colori scuri, possono causare la comparsa di polvere e macchie bianche superficiali causate dalla scalfitura del minerale interno.

- Antiscivolo
- Antibatterico
- Colorato nella massa
- Personalizzabile
- Esente da idrolisi
- Facile da pulire
- Di elevata durezza
- Riparabile
- Leggero
- Con bassa fragilità
- Resistente ai raggi UV.

## AKRYTAN®-Solid

Akrytan®-Solid es un material uniforme formado por una resina compacta de base acrílica complementada con pigmentos y cargas minerales de altas prestaciones. También llamada de forma habitual Solid Surface este material destaca por la suavidad de su tacto además de por sus propiedades mecánicas, químicas, higiénicas y de fácil reparación. Es el material ideal para utilizar en los proyectos arquitectónicos más exigentes.

- Antideslizante
- Antibacterias
- Coloreado en masa
- Personalizable
- No hidrolisis
- Fácil limpieza
- Alta dureza
- Reparable
- Ligero
- Baja fragilidad
- Resistencia UV

**Akrytan® Solid** est un matériel uniforme formé d'une résine compacte avec une base en acrylique complétée de pigments et de charges minérales de haute qualité. Ce matériel, qu'on appelle habituellement Solid Surface, se démarque grâce à sa douceur au toucher mais également à ses propriétés mécaniques, chimiques, hygiéniques et sa facilité à être réparé. Il est idéal pour les projets architecturaux les plus exigeants.

- Antiglisse
- Antibactérien
- Teinté dans la masse
- Personnalisable
- Sans hydrolyse
- Entretien facile
- Grande dureté
- Réparable
- Léger
- Faible fragilité
- Résistance aux UV

**Akrytan®-Solid** is a uniform material made up of a compact acrylic-based resin complemented with high-performance pigments and mineral fillers. Also commonly known as Solid Surface, this material stands out for its soft texture as well as its mechanical, chemical, hygienic and easy-to-repair qualities. It is the ideal material to use in the most demanding architectural projects.

- Anti-slip
- Antibacterial
- Mass-coloured
- Customisable
- Hydrolysis-free
- Easy to clean
- High-strength
- Repairable
- Light
- Durable
- UV resistance

**Akrytan®-Solid** è un materiale uniforme composto da una resina compatta a base acrilica integrata da pigmenti ad alte prestazioni e cariche minerali. Conosciuto anche come Solid Surface, questo materiale si distingue per la sua morbidezza al tatto e per le sue proprietà meccaniche, chimiche, igieniche e per la facile riparabilità. È il materiale ideale per i progetti architettonici più difficili.

- Antiscivolo
- Antibatterico
- Colorato nella massa
- Personalizzabile
- Esente da idrolisi
- Facile da pulire
- Di elevata durezza
- Riparabile
- Leggero

## CERTIFICADOS | CERTIFICATS | CERTIFICATEES | CERTIFICAZIONI

Trabajamos con una premisa clara: ofrecer productos y servicios de la mejor calidad. Y esto nos ha llevado a contar con el aval de diferentes entidades de carácter internacional y sus respectivos sellos de calidad.

Nous travaillons avec une prémisses claire: offrir des produits et services de la plus haute qualité. Et cela nous a permis de compter avec le soutien de différentes entités et leurs labels de qualité de caractère internationaux respectifs.

We work with a clear aim: to offer the best quality products and services. And this has led us to rely on the endorsement of different international entities and their respective quality hallmarks.

Preoccupandoci della qualità offriamo ai nostri clienti, noi disponiamo di una moltitudine di certificati che garantiscono la qualità di tutti i nostri prodotti.

Cumplimos con los requisitos de seguridad en aquellos productos regulados por normativas europeas.

CE: Marquage CE, déclaration de conformité avec les normes européennes.

We comply with the safety requirements on products enforced by European regulations.

CE: Marchio che evidenzia il rispetto delle Direttive Europee.

Recogida selectiva de residuos por gestores autorizados.

Gestion des déchets par des organismes autorisés.

Selective collection of waste by authorised administrators.

La gestione dei rifiuti da parte delle agenzie autorizzate.
