

Nouveau

collection designed by
Bernhardt & Vella

ex.t

A collection of washbasins, cabinets and mirrors featuring geometric and sinuous lines, born from a balance of basic and classic shapes such as circles, semi-circles and parallelepipeds, creating a game of volumes in a succession of full and empty spaces. Freely inspired by early twentieth century Art Déco, the collection takes refined suggestions from that era and reworks them with the taste and sensitivity of a contemporary perspective.

“We’ve translated a serene and discreet elegance into purity, balance of lines and shapes, lightness and airiness. Probably our more feminine side turning into a sweet, soft, but also contemporary and pragmatic sign.”

Founded in 2008 by German designer Ellen Bernhardt and Italian interior designer Paola Vella, Bernhardt-Vella is an interior design studio based in Milan.

Their starting point is research as a maieutic process. Taking inspiration from the art world, the masters of the past and architecture, they create their distinguishable and always personal style.

Nouveau washbasin is characterised by asymmetrical shapes with bold edges that serve as practical support surfaces. It can be wall mounted or a countertop – supported by a metal structure that elegantly defines its shape. The structure is available in brushed bronze, satin-finish brass or matt black finishes and can be combined with various accessories such as towel rails, wooden drawers, marble or stone storage tops to offer a functional and complete product.

With Nouveau, for the first time Ex.t inserts the colour in a collection of LivingTec washbasins. The first colour proposal is Rosa Cipria, a refined and antique colour.

“The bathroom becomes a dynamic living space, able to transform and renew itself continuously”
