WELCOME

TO FROST

THE FROST STORY

Established on June 1st 2002 by Hans Jørgen Frost, our story began with a vision to create interior design accessories and architectural hardware where Scandinavian design walks hand in hand with function.

WE DO OUR UTMOST

to inspire architects, interior designers, and anyone else who is looking for designs to create complete solutions within bathroom, kitchen and wardrobe interior design.

INDEPENDENT DESIGNERS

At FROST, we believe independent designers adds to our product development. They inspire and encourage us to think ahead, leading us into new product areas and new product development and designs.

Successfully and due to this collaboration we now offer several design series that appeal to a broader range of the consumer markets.

We are working with the experienced Danish design company Bønnelycke mdd, and design duo Busk+Hertzog. Due to their design experience, we are able to bring changes within our field. And at FROST we want to create the future.

PERFECT INTERIOR DESIGN SOLUTION

Having started from scratch in 2002, we now offer a full range of interior designs. We offer collections in many different materials and shapes but with a single design philosophy: Keep it simple. It is better to surprise than to disappoint!!

THE VISION

In the early days, a vision to become a market leader and a trendsetting company within interior design accessories, was too big a dream too soon, we thought.

It never even crossed our minds, that we would join the inner circle of established design companies so quickly. We did not expect to earn accolades or exhibit in design centres, alongside the very best market-leading design, furniture and hardware companies.

We now dare to dream big, and our vision is to become the market leader. We work tirelessly every single day, consistently providing the best designs and products to compliment your lifestyle and enhance the feel-good factor in your lives.

OUR MISSION

We seek to make FROST the preferred brand and product range, not only for residential, office and hotel projects, but also public and private building projects. At FROST, we seek to be ahead of our time. FROST's vision is to be the most innovative and trendsetting brand design house. Our work is anchored in the Scandinavian design philosophy, in which the world's best designers love to work.

BRAND VALUES

We aim to create high-quality design. We are innovative and trustworthy. FROST is the brand that never promises too much but always gives you more than you expected.

IT TAKES 10 YEARS TO BECOME AN OVERNIGHT SUCCESS

Why did our business grow so quickly? Can it continue to grow? The answer is YES, primarily because we will continue to produce our own designs and products, and we will nurse our identity and image. Our brand is highly respected across the globe, because everyone at FROST and all our partners worldwide, work tirelessly to satisfy our customers' needs.

OUR GREATEST ACHIEVEMENT

We have transformed our role in the market. We were once an alternative supplier and have now become the main supplier. This is our greatest achievement. Customers travel from all parts of the world to visit us. They have confidence in us. They can rely on us to supply the very best products and services.

PURE DANISH DESIGN

FROST: A WORK IN PROGRESS

Our vision and focus is to provide a broad platform of architectural elements that both inspire and provide comprehensive design and application solutions. Our Danish culture of progressive contemporary design is conveyed through our products in a manner that blends design with function, creativity with solutions. FROST embraces the concept that Form is nothing without Function. Emphasis has also been placed on material, quality, and service. FROST has been the recipient of International Design Awards and we have realized that our company is a Work In Progress. This we attribute to the ongoing dialogue with architects worldwide that have been embraced as part of our company culture.

FROST is more than a company: it is a vision, and a quest for excellence.

PEDAL BIN

NO STORY, SIMPLY DESIGN

design by Bønnelycke mdd

Pedal bins are vital in modern interior design, and a highly visible feature in every bathroom, kitchen and office. Our lifestyle requires high standards of hygiene and functionality, and if you add 'elegant design' to the equation, the answer is The FROST Pedal Bin. Asking Bønnelycke mdd to design the new pedal bin and include it in the deep FROST product range was an obvious step for us to take. The FROST Pedal Bin has strong roots in Danish design traditions, encapsulating the spirit of our time, and at the same time, it blends perfectly into any contemporary interior. The FROST Pedal Bin is your possibility to choose excellence.

CANNING FOR A NEW GENERATION
ARCHITECTURE

LIVING

The Nordic Feeling is quite apparent in the new FROST Living Accessories collection of Danish designed decorative and functional products.

Individual or together all products are perfect choices as stylish additions to your home. Clean and elegant designs you will appreciate in the living room, the dining room, kitchen, bathroom or any other room.

The FROST Living Accessories are made from stainless steel and available in the six FROST finishes: Universal Brushed, Perfect Polished, Original Copper, Modern Gold, Classic Black and Pure White.
The different finishes make it easy to blend the designs into an existing interior and brighten it up with spots of color and personality.

Let any of the designs from FROST Living Accessories complete your interior …

Please enjoy!

ARCHITECTURE

CAN CANDLES FORM GRAPHICS?

Yes, they can … at least with these candleholders.

The candleholders are made for two different types of candles: Ø22 mm candles and Ø40 mm tealight candles. Additionally, each holder (except for the chamberstick) comes in two versions: for one and for two candles. They can be turned upside down, overlapping one atop the other, to form the graphic pattern you prefer … if any.

The candleholders are manufactured from stainless steel and are available in six finishes: Universal Brushed, Perfect Polished, Original Copper, Modern Gold, Classic Black and Pure White.
The different finishes makes it easy to blend the candleholders into an existing interior and brighten it up with spots of color and personality.

The candleholders are designed by Bønnelycke mdd, who has managed to bring together aesthetics and function into one, and created quality products that will grace any room. The candleholders have an elegant and sculptured appearance and are unique in their simplicity.

The candleholders celebrate the individual … the FROST purpose and statement.

UNU

The UNU System encompasses furnishing products for wardrobes, hallways and living rooms. The edging profile, characteristic of the series bestows a slender and elegant look while providing endless possibilities for a well-defined and complete expression.

The UNU System is made from solid 4 mm aluminium with a powder coated finish in either black or white. The UNU Shelf System is aluminium shelves, all available in either 600 or 1000 mm lengths. In addition, a complementary smaller shelf is available, and so is magazine / shoe shelves, gallery shelves, a selction of mirrors and even trays for document storage or serving the coffee.

The UNU Wardrobe System also comes in the lengths 600 and 1000 mm and in addition, a smaller 200 mm version is available. The hooks and the chromed hanger bar completes the wardrobe system.

Since both The UNU Shelf and Wardrobe Systems are mounted on the same wall bracket, all items can be mixed and matched to suit your changing needs, the shelves may even be turned upside down. The UNU System sets a new standard for modular shelf systems.

The UNU series is designed by Bønnelycke mdd

bukto

BUKTO is the elegant free standing clothing system with the highest degree of flexibility.
Clothes stands with castors makes it perfect for conferences, meeting rooms,
dressing rooms, hallways or for in-store product presentation.

The new BUKTO shelf system introduces seamless shelf location for maximum flexibility.
This makes it an obvious choice anywhere you need to change the space between
shelves without compromising the looks of the whole.
Use the BUKTO shelf system in your kitchen, living room, dressing room or any store.

All stands are made from steel with a black or white powder coated finish.
The stainless steel top bars in Modern Gold, Original Copper and Perfect Polished makes it easy to match
with existing interior whilst making a personal statement.

The BUKTO system in designed by Bønnelycke mdd

101 sengestue

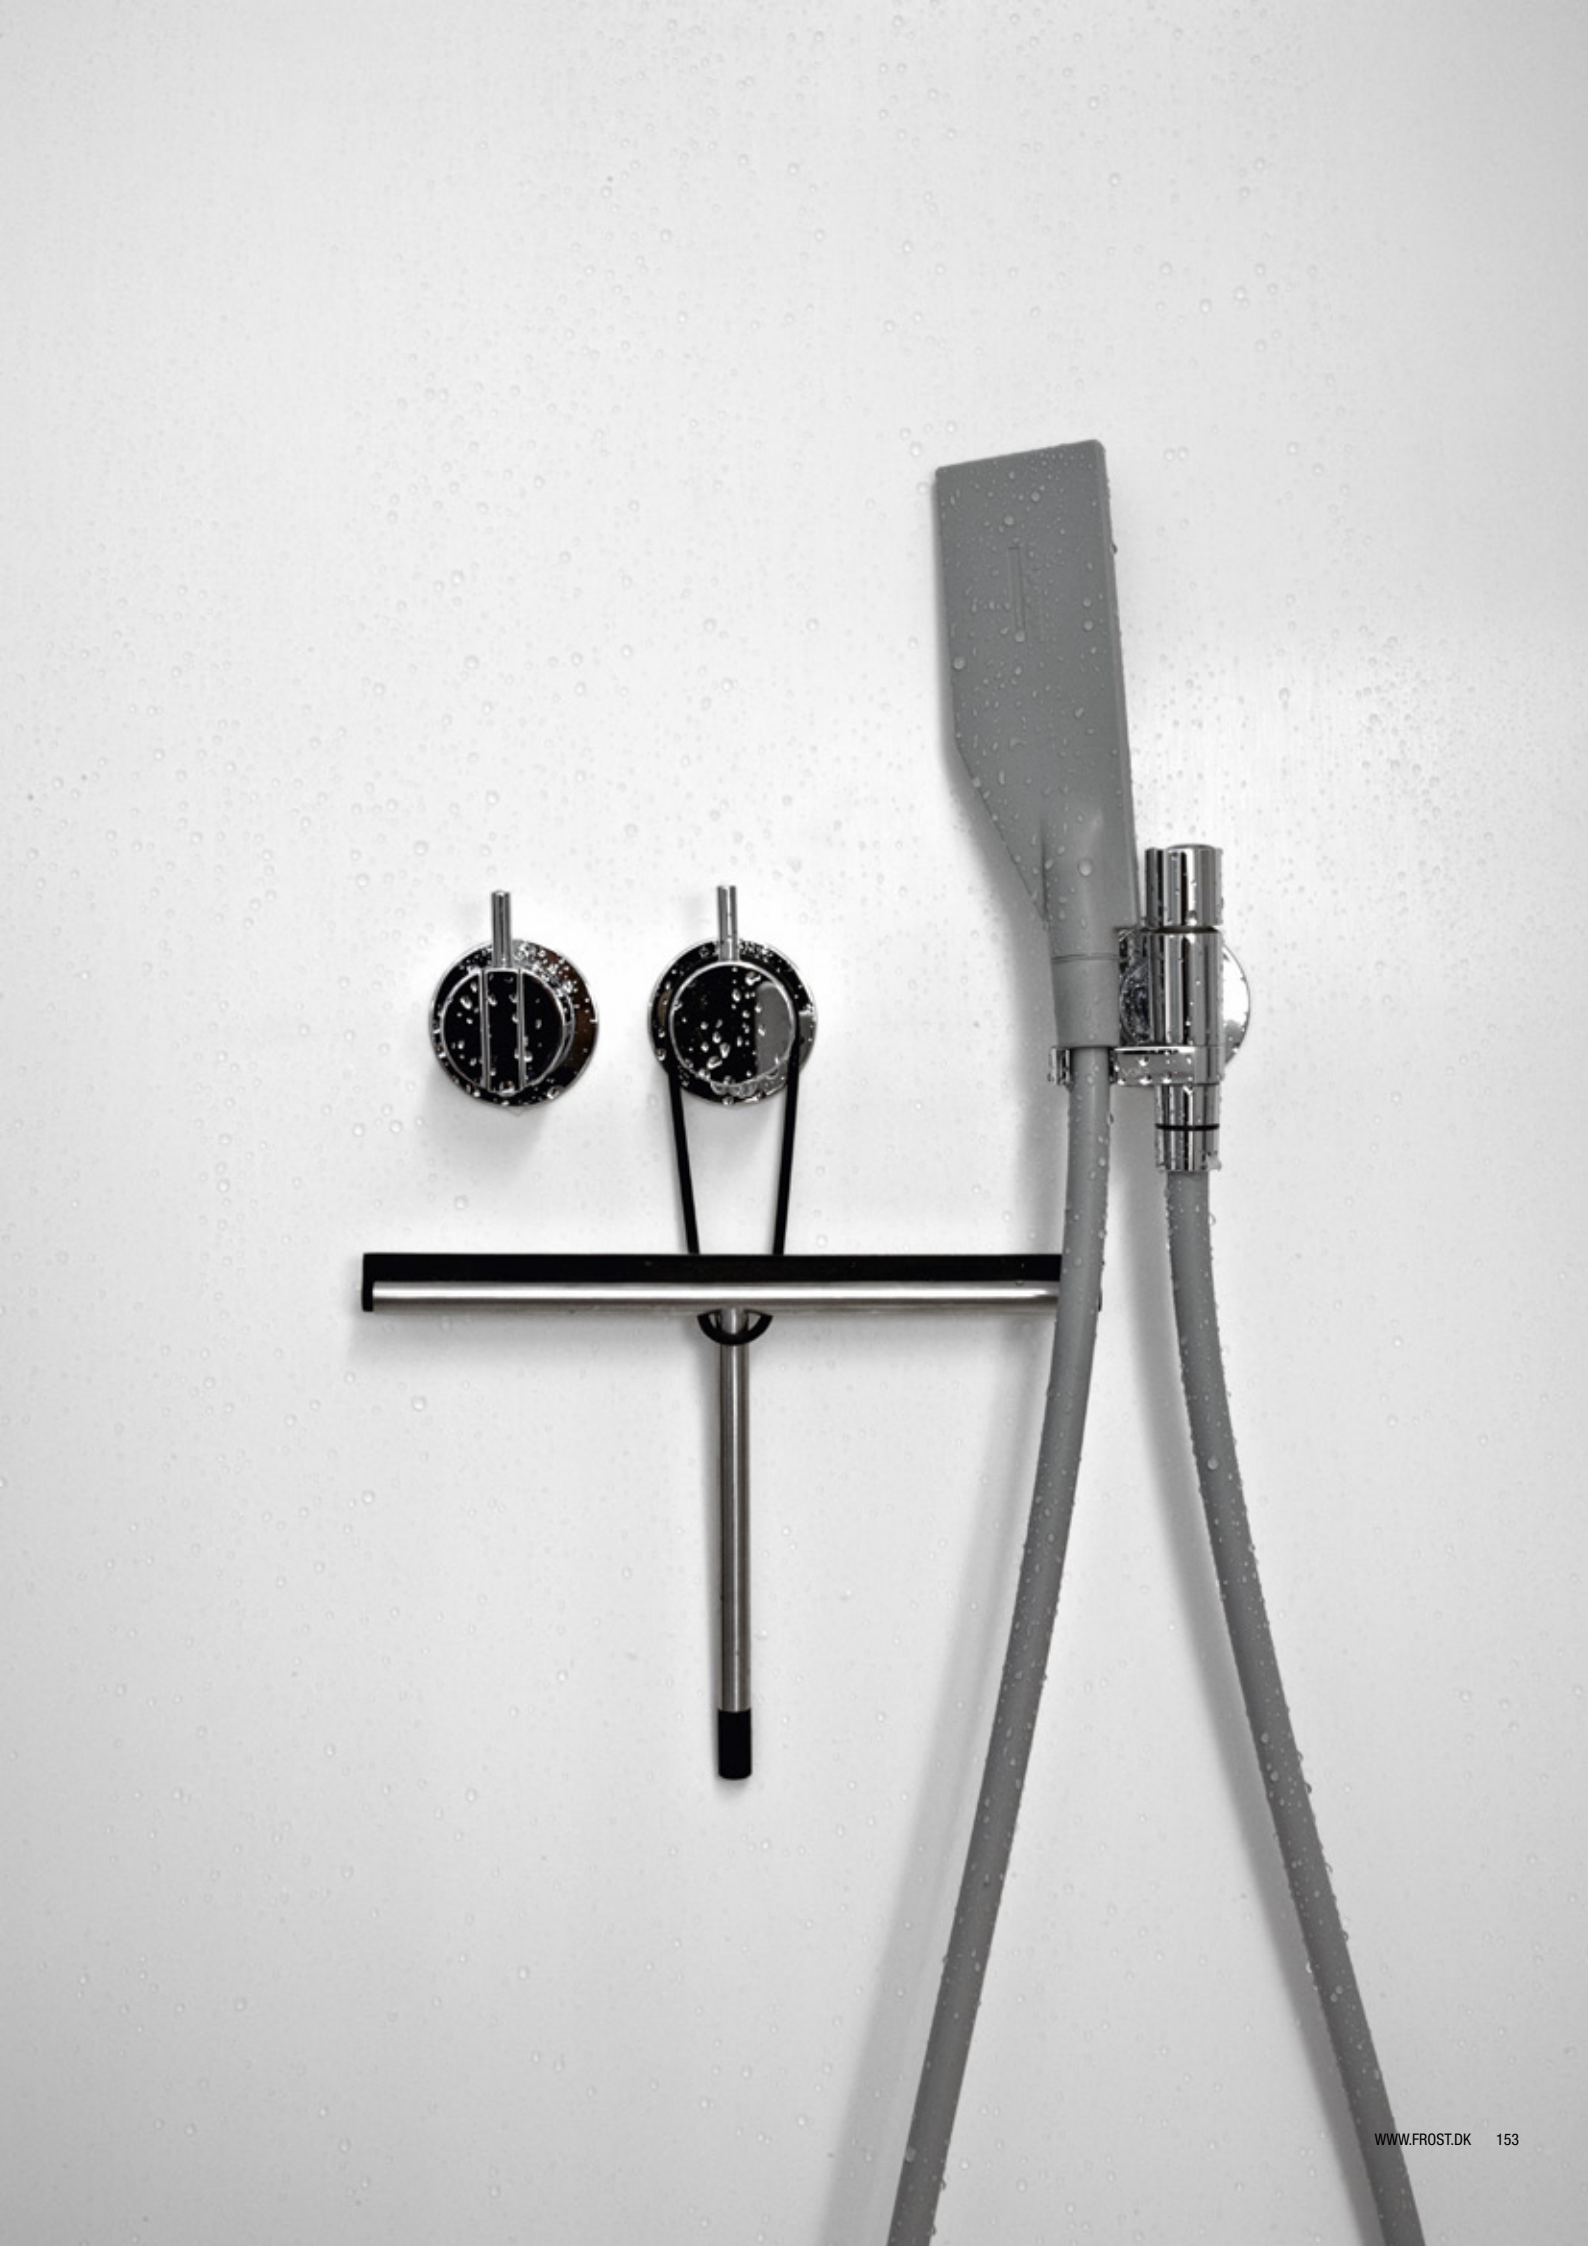

Kitchen, bathroom & wardrobe accessories.
Consistent details such as the shadow edge between the mounting surface, and the product compliments the discreet and complete series.
All elements are interpretations of the meeting between the stringent form, and the cylindrical form - this is quite apparent on the hooks for the system.

The products are made from stainless steel 304 and designed by Bønnelycke mdd, who, with a refined sense of simplicity, technical details and stylish fit, has managed to combine aesthetics and function in one and create a range of quality products that will adorn any home.

The NOVA2 series is available in the six FROST finishes: Universal Brushed, Perfect Polished, Original Copper, Modern Gold, Classic Black and Pure White.

The NOVA2 series is designed by Bønnelycke mdd.

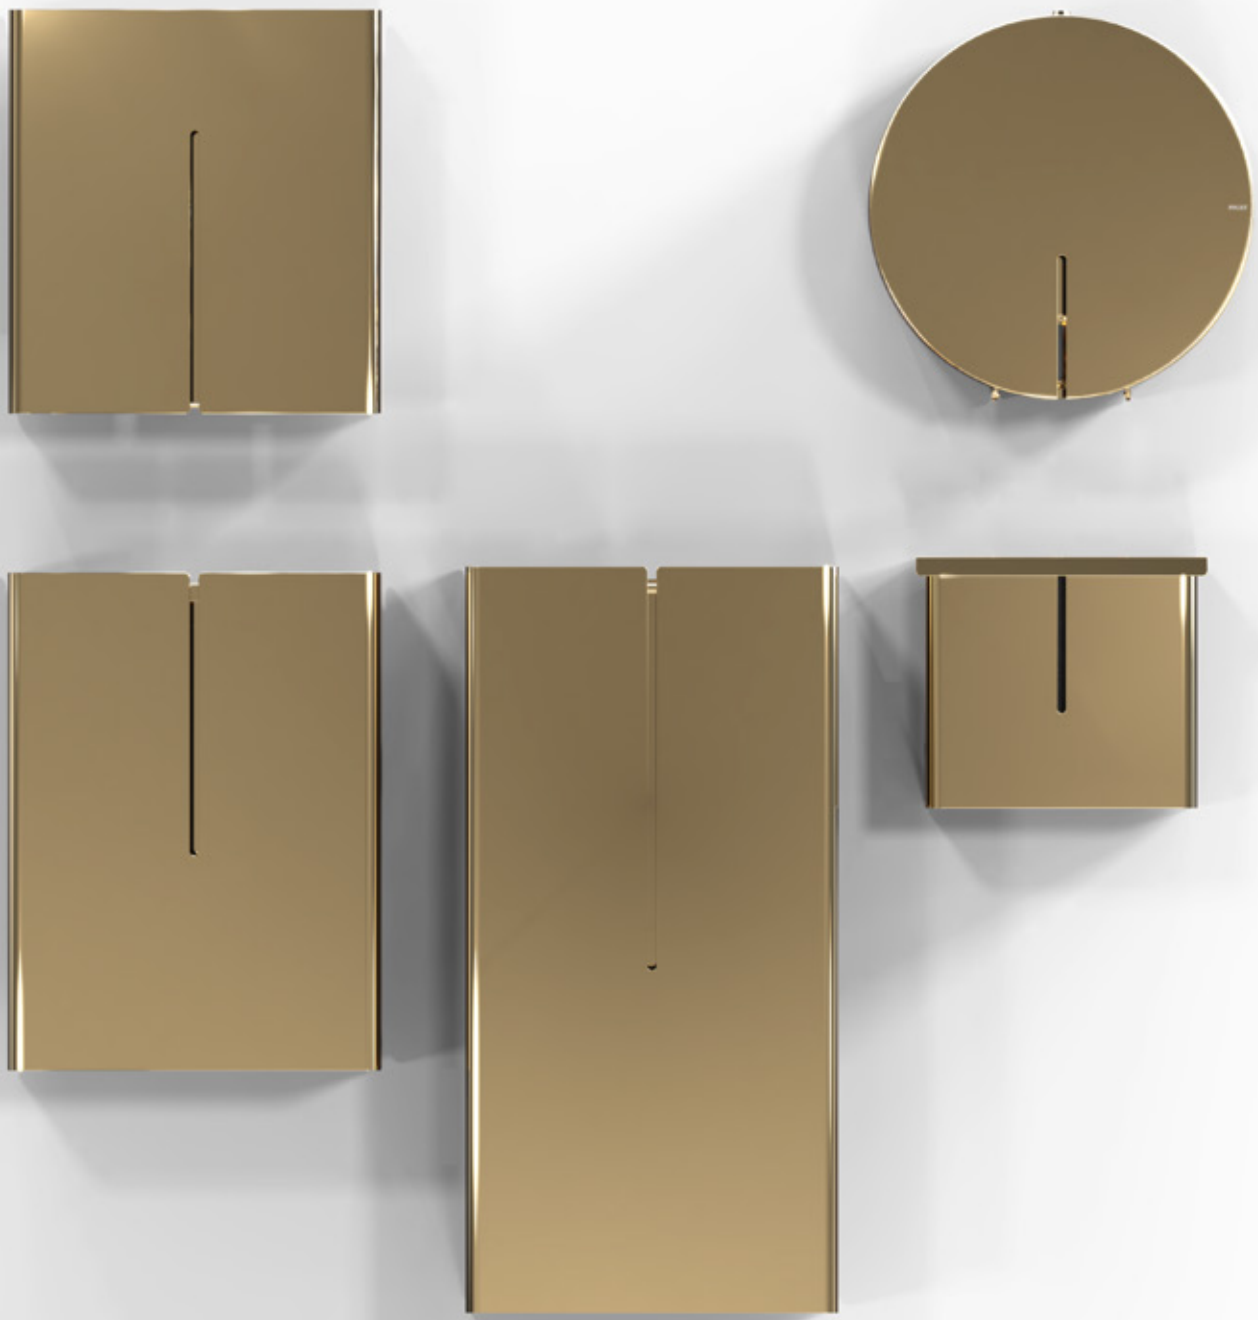

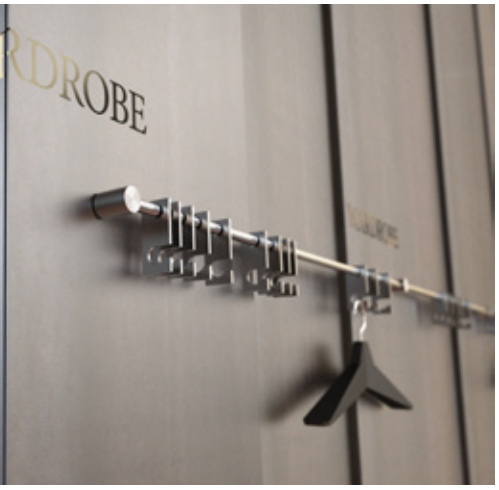

RDROBE

The new series of care products that blends function and aesthetics into one. The products are designed to fit toilets and bathrooms as well as entrances, staircases and waiting areas - in private as well as in public spaces.

NOVA2 CARE is a part of the NOVA2 series and like this, the care products are available in the six FROST finishes: Universal Brushed, Perfect Polished, Original Copper, Modern Gold, Classic Black and Pure White.
The choice of finishes makes it easy to blend the products into existing interior.

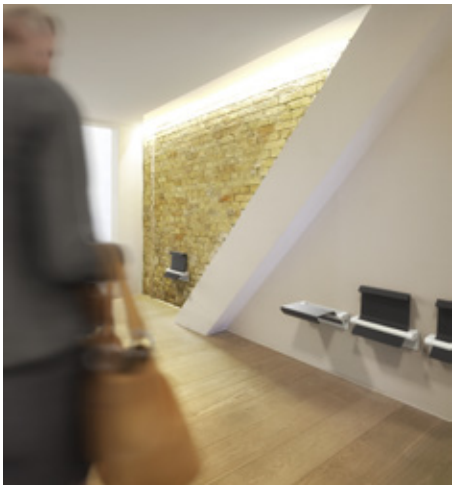

NOVA2 CARE is designed by Bønnelycke mdd

QUADRA

Kitchen, bathroom & wardrobe accessories.

The products are made from stainless steel 304.

The proportional dimensions 8:5:3 define the QUADRA series as architectural building elements.
When combined, the clean-cut and stylistically consistent details forms a characteristic and well-defined system.

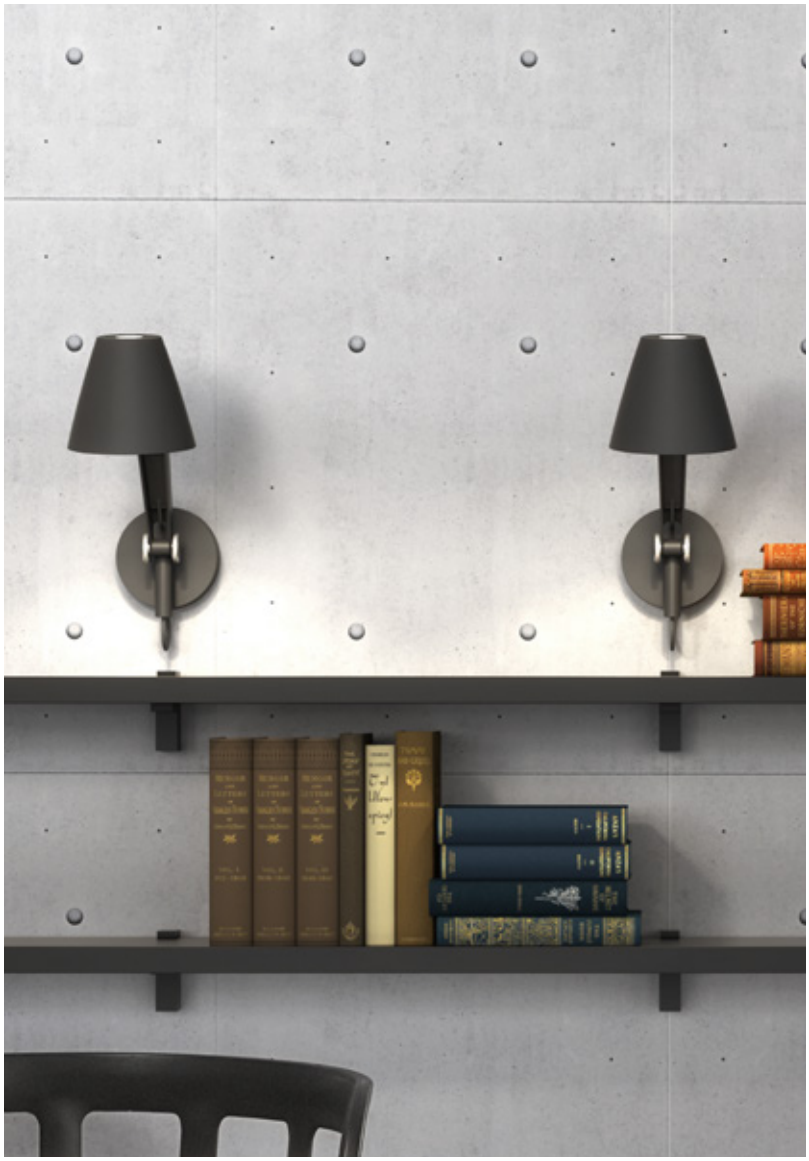

The QUADRA series is available in the six FROST finishes: Universal Brushed, Perfect Polished, Original Copper, Modern Gold, Classic Black and Pure White.

The QUADRA series is designed by Bønnelycke mdd

NOVA

Nova is a comprehensive series of wardrobe products, sanitary hardware and bathroom fittings. The series is manufactured from satin or mirror polished stainless steel 304 to resist the aggressive environment in toilets and bathrooms. The simplicity and timeless design is based on form follows function. Nova can be combined in countless variations, which allow the individual user to create an individual style in all building types.
